I'm copying Vince, Lynn and Norm since there is an effort to map out the timing of the various assessments. The plan is to map out the plan for assessments under development by this Thursday.

Hi all,

Following is Jeff's revised proposed methanol schedule, and a draft IASD fact sheet. This incorporates Norm's feedback on the schedule. I fully support this schedule, and I've reviewed the fact sheet. Feedback is requested (especially on the schedule).

NOTE: Schedule begins next Monday October 15.

Cheers,

Lyle

Lyle,

Here is my revised schedule in response to Norm's comments (see Norm's e-mail and my response below). I have also attached a revised "fact sheet." If you and John are OK with this plan and the fact sheet, I can re-forward the rest of the TR materials to you (basically the same materials that were sent up for NCEA clearance). If there are things you'd like to discuss prior to getting the Agency/Interagency review started I'd be happy to have a meeting anytime, and will put everything else aside to do it (i.e., don't be concerned about any conflicts on my schedule).

Thanks and regards,

Jeff

Thanks Norm. Below are some comments on my proposed schedule that John Cowden sent to Lyle, John V. Reeder and Debra W..

I would add that, based on Vince's comments yesterday, it is not clear to me that an FR Notice will be necessary to announce the public comment period and re-review.

Hi Jeff

Sorry I'm taking so long to get back to you. I want to be able to give you more than a superficial response but have been buried with things with more immediate deadlines. I haven't forgotten and hope to look at what you have sent tomorrow.

Hi Norm,

Deliberative Process / Ex. 5 Could you give me your thoughts on the schedule below and let me know when you will be able to send me your suggested revisions to the Lek-type fact sheet. In my proposed schedule below, I am assuming that the "re-review" that Lynn spoke of this morning is **Deliberative Process / Ex. 5**
Deliberative Process / Ex. 5 I am also assuming that a teleconference would suffice for this step.

Thanks - Jeff
